“

In our hypercritical aerospace manufacturing environment, there is no room for second chances. We rely on DeRoyal Textiles' products to provide the quality and reliability our manufacturing processes demand. ”

Product

overview

■ HERMITEX® AEROSPACE WIPES

The preferred wiping cloth of the aerospace industry, and for good reason. Manufactured from 100% purified cotton fibers, its bright white, high quality fibers are non-abrasive yet strong enough for many industrial applications.

■ JIFFY ROLL WIPES

A heavier, thicker wipe made from four layers of cheesecloth, JIFFY ROLL WIPES are super absorbent, soft and contaminant free.

DeRoyal Textiles' products for the aerospace industry are the fabrics of choice for your mission critical applications. Our textile products have been engineered and manufactured to meet the industry's stringent requirements. Strong enough to withstand industrial wiping and polishing operations utilizing strong solvents, DeRoyal Textiles products are known for quality, strength, and innovation – and are affordable even for the tightest budget.

Product

details

HERMITEX® AEROSPACE WIPING CLOTHS

HERMITEX® is manufactured from 100% purified cotton fibers and contains no silicone. Its bright white, high quality, cotton fibers are low-lint and non-abrasive, yet strong enough to withstand industrial wiping and polishing operations utilizing strong solvents. The textured weave of HERMITEX® provides more surface area for trapping contaminants and moisture, resulting in absorbency of more than 400 times its dry weight in liquids.

Shown with wire dispenser

MATERIAL SPECIFICATIONS

Fiber 100% Cotton
Color White
Weight: .43 oz./sq. yd.
Thickness: 1.56 mm
Absorbency Time: 1 second
Tensile Strength: Warp: 37.0 lbs; Weft 48 lbs.

AVAILABILITY

HERMITEX® is packaged in:
100 pre-cut pieces per roll / 12 rolls per case.
Continuous roll / 12 rolls per case.
Folded pieces / 10" x 16" / 1,000 pieces per case.
Dispenser available separately.

PERFORMANCE STANDARDS

HERMITEX® meets the following wiping cloth specifications: Qualified by Performance Review Institute (PRI) to meet or exceed SAE Specification AMS 3819, Class 1, Grade A, BMS 15-5G, CLASS A SPECIFICATION.

JIFFY ROLL WIPES

JIFFY ROLL WIPES are made from four layers of 100% cotton cheesecloth and contain no contaminants, silicone or chemical binders. JIFFY ROLL WIPES provide a heavier, thicker, more absorbent wipe than HERMITEX®, and are excellent for use in sealant applications.

MATERIAL SPECIFICATIONS

Fiber 100% Cotton
Color White
Weight: .43 oz./sq. yd.
Thickness: 1.56 mm
Absorbency Time: 1 second
Tensile Strength: Warp: 37.0 lbs; Weft 48 lbs.

AVAILABILITY

JIFFY ROLL wipes are packaged in:
128 pre-cut pieces per roll / 9" x 24" pieces.
10 rolls per case.

PERFORMANCE STANDARDS

JIFFY ROLL WIPES meet the following wiping cloth specifications: Qualified by Performance Review Institute (PRI) to meet or exceed SAE Specification AMS 3819, Class 1, Grade A, BMS 15-5G, CLASS A SPECIFICATION.

COTTON TIP APPLICATIONS / COTTON SWABS

Single-ended, non-sterile, medical grade applicators with 100% cotton tips that are highly absorbent. Applicators are mounted on a sturdy wooden handle that provides the extra support and strength needed for cleaning delicate parts and laboratory instruments, removing debris, or applying solutions in tight spaces. Available in 3" and 6" lengths. 100 pieces/bag; 10 bags/box.

WOODEN STIRRING / DEPRESSOR STICKS

Hardwood depressors made of White Birch provide strength and a clean, smooth finish for missing, stirring, and scraping. 100 pieces/box; 50 boxes/case.
