

# Polyester Wipes

DERTEX™

Suitable for use in all cleanroom environments Class 10 and above.

DERTEX™ Synthetic Wipes, 100% Polyester Hydroentangled apertured Nonwoven fabric is super soft and highly absorbent. Polyester is abrasive resistant and highly compatible with cleaning solvent such as IPA and Hexane.

**DERTEX™ Polyester Wipes are ideal for applications where absorbency is critical.**

It is a preferred choice for use in laboratories, aerospace, defense electronics, hospitals, computer assembly, biotech research facilities and semiconductor, circuit board, pharmaceutical and biomedical device manufacturing.
