Temperature Monitoring

Temple Touch Pro™ Non-Invasive Core Temperature Device

Temple Touch Pro™ System

- Non-invasive core temperature monitoring minimizes the risk of infections and complications that might be generated from the use of invasive probes
- Enables accurate and reliable core temperature monitoring throughout diverse clinical settings (Pre-Op, OR, PACU, and ICU) and all anesthesia types (general, local, and regional)
- Continuously measures, displays, and records core temperature trends, helping clinicians identify and respond to changes promptly
- Provides consistent core temperature from pre-op through recovery to help support and improve normothermia initiatives
- Compact, lightweight sensor enhances patient comfort and easily accommodates placement alongside other forehead devices (e.g., EEG sensors) and facial hair
- Unaffected by ambient or warming conditions, ensuring accurate core temperature readings even in changing environments
- Disposable sensor can be applied for up to 24 hours
- Clip provided to secure cable to patient gown
- Core body temperature displayed on Monitor Connecting Unit (MCU) and patient monitor
- Compatible with most multi-functional monitors and EMR systems to capture and chart temperature data in real time, eliminating manual documentation
- Indicated for use on patients of all ages
- Reference Units available to check MCU accuracy
- Non-sterile

Esophageal Stethoscope Probes

- For use in surgical setting to monitor heart and respiratory sounds and to measure core body temperature in anesthetized patients
- Complete line includes all popular French sizes
- Available in extra-long (22") length
- Available in regular and soft flexibility
- Thin distal cuff allows sound transmission and fidelity
- Not made with natural rubber latex
- Sterile

Temperature Monitoring

Core Temperature

General-Purpose Probes

- For routine monitoring of patient's core body temperature
- Versatile design allows for oral, nasal, or rectal introduction
- Low-friction surface improves ease of insertion
- Depth markings in 5 cm increments to indicate insertion depth
- Completely enclosed wire to prevent ingress of fluid or moisture
- Thin, flexible design
- Available in regular and soft flexibility
- Length: 2.3 ft (70 cm)
- Not made with natural rubber latex
- Sterile

Temperature Monitoring

Core Temperature

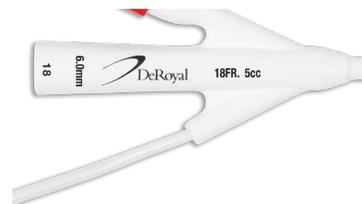

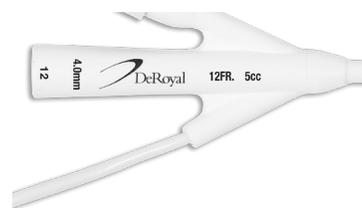

Foley Catheters with Temperature Sensors

- For urinary drainage and simultaneous monitoring of core body temperature
- Dual-purpose design can be used before, during, or after surgery
- Color-coded hubs for size identification
- Available in 8 - 18 French
- Dependable 100% silicone tubing
- Certified as MR Conditional for use in Magnetic Resonance (MR) Environment at 1.5 and 3.0 Tesla
- Not made with natural rubber latex
- Sterile

Temperature Monitoring

Core Temperature

Multi-Purpose Tube Holder

- Ideal for securing Foley catheters and a variety of tubes and catheters
- Adhesive loop securely holds Foley catheter in place and helps prevent tube dislodgment
- Designed for quick and easy placement of all sizes of tubing and lines
- Easy-to-apply adhesive base attaches firmly to skin, cloth, or drapes
- Gentle to skin and easily removed without painful pulling
- Holds lines securely in place, once line is positioned on patient
- Secure placement for positioning to create slack without bladder traction, thus decreasing risk of urinary tract infection
- Easy to position and reposition tabs
- Not made with natural rubber latex
- Non-sterile

For use with:

- Jejunostomy tubing
- Leg bag tubing
- Subclavian port lines
- Wound drainage tubing
- Peritoneal dialysis exit site tubing
- A variety of other tubes and catheters

LCD SensStrip™ Temperature Trend Indicators

- Temperature continuously displayed in 1° increments while adjusting for core temperature
- Provides a baseline temperature that can be monitored to determine if the temperature is rising or staying constant
- Changes in color from RED/TAN to GREEN to BLUE that correlates to a change in temperature
- Provides a convenient, accurate, and inexpensive way to monitor a patient's temperature trends
- May be used in conjunction with temperature probes
- Not made with natural rubber latex
- Non-sterile

DeRoyal® Neonatal Skin Temperature Sensors

Provides comfortable and precise management of neonatal patient's vital signs. Our neonatal temperature monitoring sensors are available in a number of designs and interfaces, making it easier for practitioners to customize their product needs to their patient needs. Through this large product offering, DeRoyal is able to provide a wide array of cost-effective treatment options, designed with fragile neonatal patients in mind.

- Provides reliable skin temperature reading
- Compatible with the most common neonatal temperature monitoring and warming equipment
- Unique color-coding system ensures proper sensor identification during use and storage
- Packaged with a reflective sensor cover that deflects radiant heat for more accurate readings
- Disposable replacement covers available (see pg 12) in choice of hydrogel or adhesive pads to adhere to fragile infant skin without irritation
- For more information on corresponding machines, please contact DeRoyal Customer Service

The DeRoyal® Neonatal Skin Sensors are available in 2 options:

Neonatal

Neonatal Sensor Replacement Cover System

- Cover insulates the sensor from ambient room temperature
- Reflective sensor cover deflects radiant heat for more accurate readings
- Two sizes available
- Hydrogel and acrylic adhesive options
- Hydrogel covers available with or without foam to maximize conformability
- Hydrogel adhesive reduces risk of epidermal stripping and allows the removal or relocation of sensors without disrupting skin integrity
- Packaged 200/case
- Not made with natural rubber latex
- Non-sterile

SafeLiner® Semi-Rigid Liner System

- Hydrophobic filter technology helps prevent backflow of aspirated fluids into hospital vacuum systems
- Innovative adhesive seal keeps lid securely in place to help prevent leakage and spills
- Self-aligning lid allows for quick and easy assembly
- Larger ports for better suction
- Filter traps aerosolized microorganisms
- Liners are nested for efficient packaging and storage
- Single-patient use
- Outer shell with bracket is reuseable
- Not made with natural rubber latex
- Non-sterile

Waste Fluid Management

Suction Canisters

Crystaline® ECO Rigid Canister System

- Patented dome design provides increased implosion protection when exposed to lipids in bodily fluids
- Hydrophobic filter technology helps prevent backflow of aspirated fluids into hospital vacuum systems
- Tether management with tear-away membrane port caps for ease of use
- Larger ports for better suction
- Completely disposable
- 800 cc, 1200 cc, 1500 cc, and 2500 cc capacities
- Secure press-on lids
- Filtration of staphylococcus aureus at 99.5% efficiency
- Filter traps aerosolized microorganisms
- Single-patient use
- Not made with natural rubber latex
- Non-sterile

Crystaline® ECO Rigid Canister System

Product #	Description	Qty
71-0800	800 cc Canister	50/Cs

71-8012*	1200 cc Canister, 2 elbows, ¾" x 1.5' & ¾" x 6' connector tubing	30/Cs
71-8013*	1500 cc Canister, 2 elbows, ¾" x 6' connector tubing	30/Cs

Critical Measurement Canisters

- Ideal where small volumes of fluid must be accurately measured
- 300 cc total capacity
- Fits in standard 1200 cc wall bracket
- Clear, easy-to-read graduations with calibrations in 5 cc increments
- ± 10% accuracy at 0 - 50 cc; ± 5% accuracy at 55 - 300 cc
- Steps at 50 cc and 150 cc for fast and easy "at-a-glance" readings
- Can be used as stand-alone or in tandem
- Includes shut-off filter mechanism
- Completely disposable
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Qty
71-7101	300 cc Canister	48/Cs

! *WARNING- This product can expose you to chemicals including di(2-ethylhexyl)phthalate, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

Bag Canister Suction Liner

- Hydrophobic filter technology helps prevent backflow of aspirated fluids into hospital vacuum systems
- Canister lids are laser welded to bag for leak protection
- Patented folding design and self-seating system allow for fast and simple set up
- Liners are folded for efficient packaging and storage
- Single-patient use
- Outer shell with bracket is reuseable
- Not made with natural rubber latex
- Non-sterile

Waste Fluid Management

Suction Canisters

Omni-Jugs® Suction Canisters

- 16 liter disposable rigid canisters, the largest on the market
- Allows use of up to four devices simultaneously
- Eliminates changing canisters during heavy fluid procedures
- Built-in handles allow for easier transport when full
- Fits OR roll stand for easier transport
- Floor dolly available for easy movement during and after procedure
- Completely disposable
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Qty
5036-00	16 Liter Canister	4/Cs
5036-01	16 Liter Canister w/ Collection Sock	4/Cs
5036-05	16 Liter Canister Roll Stand	1/Ea
5036-10	Floor Dolly	1/Ea

Drain-Jug™ Container

- Eliminates the need for floor drains
- Collects fluid waste from any drape, pouch, or pump utilizing gravity
- Great for arthroscopic drain pumps and cystoscopic pouches
- Replaces use of hazardous, open-topped kick buckets
- Fits floor dolly for easy transport
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Qty
6036-00	15 Liter Container	10/Cs
5036-10	Floor Dolly	1/Ea

Suction Tubing with Connectors

- Molded female connectors provide secure connection
- Male connector included for coupling additional tubes
- Minimal coil memory allows for easy handling and drapability
- Color coded connectors for size identification
- Available in economical non-sterile 100 ft rolls with intergraded connectors
- 100 ft rolls include 16 rigid male connectors
- Not made with natural rubber latex
- Sterile

Waste Fluid Management

Suction Handles

Flexible Suction Handles

71-D861

- Constructed of a malleable non-breakable vinyl with smooth inner lumen
- Highly flexible for precise suctioning
- Transparent for visual monitoring and inspection during use
- Available in three tip styles for different volumes of suction (fine, regular, or high)
- Side eyes help to reduce the chance of tissue grab and/or trauma
- Vented option available with regular capacity
- Not made from natural rubber latex
- Sterile

Product #	Description	Qty
71-D860	Fine capacity	50/Cs
71-D861	Regular capacity	50/Cs
71-D861V	Regular capacity, vented	50/Cs
71-D862	High capacity	50/Cs

Pooler Suction Handle

71-D8770

- Constructed of a shatter-resistant plastic
- Designed to remove pooled blood and fluids during surgical procedures
- Features three multipurpose positions that convert from sump action to pinpoint capabilities
- Outer sheath has 132 large eyes for rapid suctioning while reducing tissue grab
- Inner cannula provides pinpoint suctioning
- Universal connector for easy connection to a variety of tubing sizes
- Not made from natural rubber latex
- Sterile

Product #	Description	Qty
71-D8770	Pooler Suction Handle	50/Cs

Frazier Suction Handles

71-D871

- Ideal for surgical procedures that require fine and delicate suctioning
- Malleable shaft can be bent to desired position without occlusion
- Obturator can be used to facilitate shaping of shaft and/or removal of obstructions that may become trapped during suctioning
- Obturator must be removed before suctioning begins
- Control vent allows for intermittent or continuous suction control
- Universal connector for easy connection to a variety of tubing sizes
- Not made from natural rubber latex
- Sterile

Product #	Description	Qty
71-D871	8 French	50/Cs
71-D872	10 French	50/Cs
71-D873	12 French	50/Cs

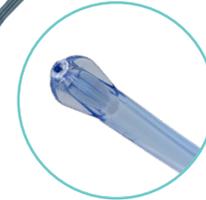

Yankauer Suction Handles

- Constructed of a shatter-resistant plastic
- Smooth inner surface for maximum flow
- Slip-resistant and lightweight, provides optimal control and maneuverability
- Translucent material allows for visual monitoring and inspection during use
- Available in three tip styles: bulbous, tapered bulbous, and straight
- Bulbous tip is rounded to help minimize tissue grab and/or trauma
- Tapered bulbous tip helps minimize tissue grab and/or trauma, while allowing for better visibility
- Straight tip provides less bulk, allowing for better visibility
- Each tip has side eyes to help reduce tissue grab
- Available with control vent for intermittent or continuous suction control
- Available with pre-attached tubing
- Not made from natural rubber latex
- Sterile

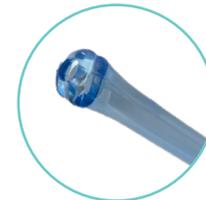

Product #	Description	Qty
71-D886	Bulbous tip, non-vented	50/Cs
71-D886V	Bulbous tip, vented	50/Cs
71-D880	Tapered bulbous tip, non-vented	50/Cs
71-D882	Tapered bulbous tip, vented	50/Cs
71-D887	Straight tip, non-vented	50/Cs
71-D887V	Straight tip, vented	50/Cs
71-D888	Bulbous Tip with On/Off Switch	50/Cs
71-D883A*	Tapered bulbous tip, non-vented with ¼" (6 mm) x 6' (1.8 m) tubing	50/Cs
71-D884*	Tapered bulbous tip, non-vented with ¼" (6 mm) x 9' (2.7 m) tubing	25/Cs
71-D885*	Tapered bulbous tip, non-vented with ¼" (6 mm) x 12' (3.7 m) tubing	25/Cs

Waste Fluid Management

Suction Connectors

5-in-1 Straight Connector

- Compatible with a variety of medical tubing
- Fits tubing sizes $\frac{3}{16}$ " to $\frac{7}{16}$ " (5 to 11 mm)
- Available in sterile and non-sterile

Product #	Description	Qty
71-515S	Sterile	1/Pch, 25 Pch/Bx, 8 Bx/Cs, 200/Ea
71-515N	Non-sterile	50/Bg, 1 Bg/Bx, 10 Bx/Cs, 500/Ea

6-in-1 Y Connector

- Compatible with a variety of medical tubing
- Fits tubing sizes $\frac{1}{4}$ " to $\frac{5}{16}$ " (6 to 15 mm)
- Available in sterile and non-sterile

Product #	Description	Qty
71-616S	Sterile	1/Pch, 15 Pch/Bx, 8 Bx/Cs, 120/Ea
71-616N	Non-sterile	15/Bg, 1 Bg/Bx, 10 Bx/Cs, 150/Ea

Sims Connector

- Compatible with a variety of medical tubing
- Fits tubing sizes $\frac{1}{8}$ " to $\frac{1}{4}$ " (3 to 6 mm)
- Available in sterile and non-sterile

Product #	Description	Qty
71-618S	Sterile	1/Pch, 50 Pch/Bx, 8 Bx/Cs, 400/Ea
71-618N	Non-sterile	50/Bg, 1 Bg/Bx, 10 Bx/Cs, 500/Ea

T Connector

- Compatible with a variety of medical tubing
- Fits tubing sizes $\frac{3}{16}$ " to $\frac{7}{16}$ " (5 to 11 mm)
- Available in sterile and non-sterile

Product #	Description	Qty
71-619S	Sterile	1/Pch, 15 Pch/Bx, 8 Bx/Cs, 120/Ea
71-619N	Non-sterile	15/Bg, 1 Bg/Bx, 10 Bx/Cs, 150/Ea

Elbow Right Angle Connector

- Connect suction tubing to ports at a 90° angle

Product #	Description	Qty
71-1118	Non-sterile	100/Cs

Solidifier

- Solidifies potentially serious infectious waste within the suction canister quickly and effectively
- Quickly penetrates throughout canister to solidify blood and bodily fluids
- No shaking required
- Retains solidity to prevent spills and leaks for safe and easy red bag disposal
- Concentrated formula: one ounce cost-effectively solidifies 1000 cc of liquid
- Chlorine-free for non-toxic incineration
- Not made with natural rubber latex
- Non-sterile

Product #	Package Type	Volume Solidified	Qty
71-0500	Dissolvable Pouch	500 cc	200/Cs
71-1000	Dissolvable Pouch	1000 cc	96/Cs
71-1200	Bottle w/ Yorker Cap	1200 cc	96/Cs
71-1500	Bottle w/ Yorker Cap	1500 cc	96/Cs
71-2005	Bottle w/ Yorker Cap	2000 cc	36/Cs
71-3000	Bottle w/ Yorker Cap	3000 cc	36/Cs
71-9000	Bottle w/ Yorker Cap	9000 cc	12/Cs
71-18000	Bottle w/ Yorker Cap	18000 cc	12/Cs

Premium Solidifier

- Quickly encapsulates liquid medical waste
- Helps reduce OR turnover time
- U.S. Environmental Protection Agency (EPA) registered liquid medical waste treatment
- Solidified medical waste is rendered non-infectious
- White bag disposal in EPA-approved states*
- Not made with natural rubber latex
- Non-sterile

Waste Fluid Management

Specialty Fluid Control

Puddle Guppy® Floor Aspirator

- Disposable floor aspirator to quickly remove fluid from OR floor
- The only floor aspirator with a detachable “Fish Stick™” push handle
- Great for clean up during and after high fluid cases
- Includes 72” suction tubing
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Qty
5036-30*	Puddle Guppy® Floor Aspirator (Includes 1 Fish Stick™ handle)	30/Cs
5036-31*	Puddle Guppy® Floor Aspirator w/ Clamp (Includes 1 Fish Stick™ handle)	30/Cs
5036-35	Fish Stick™ push handle	10/Cs

H2NO® Suction & Anti-Fatigue Mat

- Lightweight for ease of set-up and disposal resulting in improved room turnover times
- Economical for heavy fluid procedures helping to eliminate laundry on the floor
- Provides strong, quiet suction with anti-fatigue properties
- Non-skid design with fluid channels to reduce standing fluid
- Single use eliminates cross contamination possibilities
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Size	Qty
H2NO	H2NO® Suction and Anti-Fatigue Mat	56” x 40”	10/Cs

 *WARNING- This product can expose you to chemicals including di(2-ethylhexyl)phthalate, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

Blue Absorbent Mats

- Three sizes to accommodate any size operating room, lab station, decontamination room, or scrub sink
- Accommodates rolling casters on carts and accessories helping to prevent tearing or bunching
- Laminated impermeable backing eliminates fluid contact with floor to help prevent staining
- Reduces linen use
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Size	Qty
71-4304	Small	46" x 40"	10/Cs
71-4305	Medium	46" x 72"	10/Cs
71-4306	Large	46" x 125"	10/Cs

Grey Absorbent Mats

- Helps prevent fluids from hitting the floor to address slip and fall incidents
- Large sizes allow three people on mat at once
- May be positioned in a variety of locations for use in different procedures
- Accommodates rolling casters on carts
- Stationary, non-skid surface
- Lightweight for easy clean up and removal
- Reduces linen use
- Unique absorbent surface helps prevent fluid splashes
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Size	Qty
71-4301	Floor Mat	48" x 30"	32/Cs
71-4301L	Floor Mat w/ Poly Backing	48" x 30"	10/Cs
71-4302	Floor Mat	48" x 60"	16/Cs
71-4302L	Floor Mat w/ Poly Backing	48" x 60"	10/Cs

Waste Fluid Management

Specialty Fluid Control

Pink Absorbent Mats

- Made of super absorbent polymers and layered absorbent fibers for heavy fluid control
- Contains up to 60% recycled content with pliable fibers for folding and easy storage
- Helps prevent fluids from ever hitting the floor to address slip and fall incidents
- Laminated impermeable backing eliminates fluid contact with floor to help prevent staining
- Accommodates rolling casters on carts
- Stationary, non-skid surface
- Lightweight for easy clean up and removal
- Reduces linen use
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Size	Qty
71-4312	Medium	30" x 56"	10/Cs
71-4313	Large	48" x 56"	10/Cs

The Surgical Mat™ & The Mini Mat® Disposable Surgical Mats

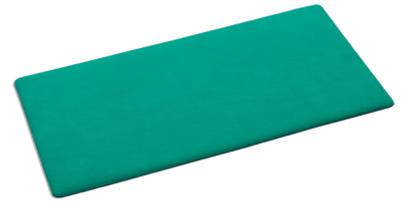

- Patented, antimicrobial disposable surgical mat
- Address three major OR issues: surgical comfort, fluid buildup, and OR safety
- Non-slip molded foam with custom tapered fluid channels
- Fluid channels aid in keeping surgical team's feet dry and help reduce the risk of tracking body fluids throughout the OR suite
- Elasticity and cushioning provide exceptional comfort during prolonged procedures, mitigating foot, leg, and back pain
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Size	Qty
USA-010D	The Surgical Mat™	20" x 39"	10/Cs
USA-A10D	The Mini Mat®	13" x 17"	10/Cs

The Smooth Mat™ Disposable Surgical Mat

- Ergonomic surgical mat designed for use in the OR specifically for longer, dry surgical procedures
- Reduces the exhaustive pain and discomfort from standing for extended periods of time in the OR
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Size	Qty
USA-S10D	The Smooth Mat™	20" x 39"	10/Cs

Safe Cord™ Floor Strip

- Durable, disposable safety strip designed to cover cables and cords on the OR floors helping to reduce the risk of staff tripping hazards and injuries
- Adhesive strips on the underside secure the product to the floor without leaving any residue
- Easy to see bright yellow for added staff safety
- Can be safely walked on or rolled over by equipment without compromising function
- Simple set-up, removal, and disposal
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Size	Qty
71-4311	Safe Cord™ Floor Strip	9" x 28"	30/Cs

Waste Fluid Management

Suction Hardware & Accessories

Suction Accessories

Suction Hardware & Accessories

Suction Hardware Guide		
Part #	Description	Use/Notes
71-1119*	Plastic DISS Adapter	Universal plastic regulator adapter (polycarbonate); both female and male fittings. DISS (Diameter-Indexed Safety System)
71-5014	Bracket, Flat Ring, 800/1200 cc	Metal three-hole flat bracket for 800/1200 cc rigid canisters. Typically used when hung from a wall regulator with polycarbonate DISS adapter (71-1119*)
71-2098	Bracket, Flat Ring, 1500/2500 cc	Metal three-hole flat bracket for 1500/2500 cc rigid canisters. Typically used when hung from a wall regulator with polycarbonate DISS adapter (71-1119*)
71-5003	Bracket, Metal Ring- 800/1200 cc	800/1200 cc ring bracket for standard metal hospital mount that has no bottom, edging or lip, 1.65" wide (typical use is on anesthesia carts)
71-2096	Bracket, Metal Ring- 1500/2500 cc	1500/2500 cc ring bracket for standard metal hospital mount that has no bottom edging or lip, 1.65" wide (typical use is on anesthesia carts)
71-5008*	Bracket, Plastic Ring w/ Valve 800/1200 cc	Ring bracket for 800/1200 cc rigid canisters to be used with plastic roll stand or patient floor wall mounts. Bracket includes on/off valve and blue vacuum hose
71-5009*	Bracket, Plastic Ring w/ Valve 1500/2500 cc	Ring bracket for 1500/2500 cc rigid canisters to be used with plastic roll stand or patient floor wall mounts. Bracket includes on/off valve and blue vacuum hose
71-5010	Bracket, Plastic Ring, 800/1200 cc	Plastic single canister ring bracket for 800/1200 cc canisters, 2" wide, used with existing wall mounts or DeRoyal 71-1116
71-1117	Bracket, Plastic Ring, 1500/2500 cc	Plastic single canister ring bracket for 1500/2500 cc canisters, 2" wide, used with existing wall mounts or DeRoyal 71-1116
71-5018	Bracket, Plastic Ring (Grey), 1500/2500 cc	1500/2500 cc ring bracket w/holes for regulator mount
71-5012	Bracket, Pole Mount	Mount to attach canisters to either a vertical or horizontal pole or handle
71-5017	Bracket, Rail Mount	Universal for Crystalline® ECO Rigid Canisters & SafeLiner® Semi-Rigid Liners
71-5019	Bracket, Rail Mount (Hill-Rom®, Hanging)	Rail mount specific to Hill-Rom® Headwalls to be used with Crystalline® ECO Rigid Canisters and SafeLiner® Semi-Rigid Liners
71-1000T^	Bracket, T Mount	SafeLiner® Semi-Rigid Outer Shell "T Connector" Canister, 1000 cc
71-1500T^	Bracket, T Mount	SafeLiner® Semi-Rigid Outer Shell "T Connector" Canister, 1500 cc
71-3000T*	Bracket, T Mount	SafeLiner® Semi-Rigid Outer Shell "T Connector" Canister, 3000 cc
71-5046	Manifold, 4 Port	Manifold tubing used with plastic roll stand (71-5045)
71-5047	Manifold, 2 Port	Manifold tubing used with plastic roll stand (71-5045)
71-1000BR*	Outer Shell Canister, Semi-Rigid, 1000 cc, Bracket Mount	Outer shell for use with SafeLiner® Semi-Rigid 1000 cc liners, sliding bracket mount; fits into standard mounts on plastic roll stand or standard wall brackets
71-1000DS^	Outer Shell Canister, Semi-Rigid, 1000 cc, DISS Mount	Outer shell for use with SafeLiner® Semi-Rigid 1000 cc liners, DISS adapter (polycarbonate) for mounting directly onto regulator
71-1500BR*	Outer Shell Canister, Semi-Rigid, 1500 cc, Bracket Mount	Outer shell for use with SafeLiner® Semi-Rigid 1500 cc liners, sliding bracket mount; fits into standard mounts on plastic roll stand or standard wall brackets
71-1500DS^	Outer Shell Canister, Semi-Rigid, 1500 cc, DISS Mount	Outer shell for use with SafeLiner® Semi-Rigid 1500 cc liners, DISS adapter (polycarbonate) for mounting directly onto regulator
71-3000BR*	Outer Shell Canister, Semi-Rigid, 3000 cc, Bracket Mount	Outer shell for use with SafeLiner® Semi-Rigid 3000 cc liners, sliding bracket mount; fits into standard mounts on plastic rollstand or standard wall brackets
71-5912*	Rollstand Conversion Kit, 800/1200 cc	Kit required to convert roll stand (71-5045) to accommodate 800/1200 cc rigid canisters; includes (4) ring brackets (71-5008); (1) manifold (71-2046)
71-5915*	Roll Stand Conversion Kit for 1500/2500 cc	Kit required to convert roll stand (71-5045) to accommodate 1500/2500 cc rigid canisters; includes (4) ring brackets (71-5009); (1) manifold (71-5046)

Waste Fluid Management

Suction Hardware & Accessories

Suction Hardware Guide		
Part #	Description	Use/Notes
71-5045*	Roll Stand, 4-can, Plastic	Plastic four canister roll stand. Must add adapter kits for the following: 800/1200 cc - (71-5912); 1500/2500 cc (71-5915); liners (71-5046); manifold + (4) outer shells of correct size
71-5045R*	Roll Stand, 4-can, Plastic w/ Regulator Mount	Plastic four canister roll stand. Includes DISS connection on top of roll stand to mount regulator. Must add adapter kits for the following: 800/1200 cc- (71-5912); 1500/2500 cc (71-5915); liners (71-5046); manifold + (4) outer shells of correct size
71-5045-8*	Roll Stand, 8-can, Plastic	Plastic eight canister roll stand. Must add adapter kits for the following: 800/1200 cc - (71-5912); 1500/2500 cc (71-5915); liners (71-5046); manifold + (4) outer shells of correct size
71-5045-8R*	Roll Stand, 8-can, Plastic w/ Regulator Mount	Plastic eight canister roll stand. Includes DISS connection on top of roll stand to mount regulator. Must add adapter kits for the following: 800/1200 cc- (71-5912); 1500/2500 cc (71-5915); liners (71-5046); manifold + (4) outer shells of correct size
71-5045R-S*	Roll Stand, 4-can, Plastic w/ Regulator Mount, Short	Short, plastic four canister roll stand. Includes DISS connection on top of roll stand to mount regulator. Must add adapter kits for the following: 800/1200 cc- (71-5912); 1500/2500 cc (71-5915); liners (71-5046); manifold + (4) outer shells of correct size
71-5016	Roll Stand, Floor Kick, Double, Universal	Metal double canister roll stand for Crystalline® ECO Rigid Canisters. Must add appropriate ring bracket for rigid canisters or outer shell for liners
71-5013	Wall Mount, Double, Universal, Metal	Metal double wall mount. Can be used to hang 2 canisters or liners from one standard hospital wall mount. Used in combination with the following plastic ring brackets: 71-1117, 71-5008, 71-5009, 71-5010, 71-1000BR, 71-1500BR, 71-3000BR
71-1116	Wall Mount, Plastic	Plastic wall mount used in combination with with the following plastic ring brackets: 71-1117, 71-5008, 71-5009, 71-5010, 71-1000BR, 71-1500BR, 71-3000BR
71-5020	Wall Plate, Metal	Metal wall mount used in combination with with the following plastic ring brackets: 71-1117, 71-5008, 71-5009, 71-5010, 71-1000BR, 71-1500BR, 71-3000BR

M10-092B	7" OD x 3" ID x 2"	w/ Center	Non-Compressed	36/Cs
M10-092E	7" OD x 3" ID x 1½"	w/o Center	Non-Compressed	36/Cs

Stacked Head Positioners

- Breathable, high-density foam construction
- Assists in proper alignment of the head, neck, and spine during surgical procedures
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Can be used when patient is in supine or lateral positions
- Designed to provide different inner diameters by simply removing inner rings

Product #	Dimensions	Description	Compression	Qty
M10-090	9" OD x (6", 4½", 3" ID) x 2"	Multi Ring	Non-Compressed	36/Cs

Head Cradle with "T" Cutout

- Breathable, high-density or low-density foam construction
- Assists in proper alignment of the head, neck, and spine during surgical procedures
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Can be used when patient is in supine, lateral, or prone positions
- IV slit permits IV line to pass from the equipment to the patient
- "T" cutout allows for secure endotracheal tube placement

Product #	Dimensions	Description	Compression	Qty
M60-023	9½" x 10¾" x 4"	w/ IV Slit	Non-Compressed	10/Cs
M60-023-C	7" x 6¼" x 3½"	Child w/o IV Slit	Compressed	12/Cs
M60-023W	9" x 8" x 4¼"	Cutout Left In	Compressed	12/Cs
M9501	9" x 8" x 4¼"	w/ IV Slit	Compressed	36/Cs
M9501E	9" x 8" x 4¼"	w/ IV Slit	Non-Compressed	36/Cs

Tall Head Cradle with “T” Cutout

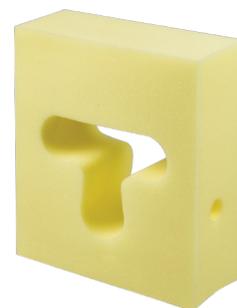

- Breathable, high-density foam construction
- Assists in proper alignment of the head, neck, and spine during surgical procedures
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- IV slit permits IV line to pass from the equipment to the patient
- “T” cutout allows for secure endotracheal tube placement
- Taller profile provides patients extra comfort and support

Product #	Dimensions	Description	Compression	Qty
M9503	9" x 8" x 5¾"	w/ IV Slit	Compressed	36/Cs

Framed Head Positioner

- Breathable, high-density foam construction
- Assists in proper alignment of the head, neck, and spine during surgical procedures
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Can be used when patient is in supine, lateral, or prone positions
- IV slit permits IV line to pass from the equipment to the patient
- “T” cutout allows for secure endotracheal tube placement

Product #	Dimensions	Description	Compression	Qty
M60-030	10½" x 9½" x 4"	w/ IV Slit	Non-Compressed	10/Cs

Soft Head Positioner w/ Trach Hole

- Breathable, high-density or low-density foam construction
- Assists in proper alignment of the head, neck, and spine during surgical procedures
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Designed with soft top layer for increased comfort

Product #	Dimensions	Compression	Qty
M9504*	10¾" x 9½" x 7"	Compressed	24/Cs
M9504E	10¾" x 9½" x 7"	Non-Compressed	12/Cs
M9505	10" x 10½" x 2½"	Non-Compressed	10/Cs

Surgical Patient Positioners

Head & Neck

Slotted Head Positioner

- Breathable, high-density foam construction
- Assists in proper alignment of the head, neck, and spine during surgical procedures
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Slots provide clearance for breathing or tracheal tubes when patient is placed in a prone position

Product #	Dimensions	Compression	Qty
M60-028	9" x 8" x 4"	Compressed	12/Cs

Prone Head Positioner

- Breathable, high-density foam construction
- Assists in proper alignment of the head, neck, and spine during surgical procedures
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Protects facial features when patient is placed in the prone position
- IV slit permits IV line to pass from the equipment to the patient
- "T" cutout allows for secure endotracheal tube placement

Product #	Dimensions	Compression	Qty
M60-251	8" x 8" x 4"	Compressed	12/Cs

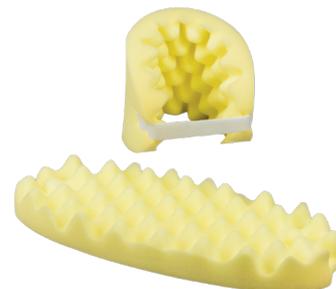

Prone Head Positioner w/ Arm Support

- Breathable, high-density foam construction
- Assists in proper alignment of the head, neck, and spine during surgical procedures
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Protects facial features when patient is placed in the prone position
- Designed to provide comfort and support to patient's forearms

Product #	Dimensions	Compression	Qty
M10-082	20" x 16" x 6"	Non-Compressed	6/Cs

Ulnar Nerve Protectors

- Breathable, high-density or low-density foam construction
- Designed to protect the elbow and ulnar nerve during surgical procedures
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Convoluted foam construction promotes air circulation for patient comfort
- Hook and loop straps for easy application and adjustment

Product #	Dimensions	Compression	Qty
M9500	15½" x 6½"	Non-Compressed	36Pr/Cs
M9500E	15½" x 6½"	Non-Compressed	36Pr/Cs

Laminectomy Arm Cradle

- Breathable, high-density or low-density foam construction
- Designed to protect the elbow, forearm, and ulnar nerve during surgical procedures
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Designed to be flexible allowing the arm to be placed in various positions

Product #	Dimensions	Compression	Qty
M10-319	24" x 5" x 3"	Compressed	5Pr/Cs
M10-319E	24" x 5" x 3"	Non-Compressed	5Pr/Cs

Axilla Arm Cuffs

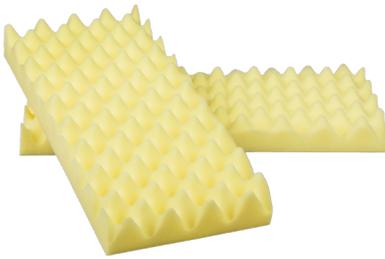

- Breathable foam construction
- Designed to provide support to the upper arm while protecting the axillary vessels and brachial plexus of nerves during surgical procedures
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Can be used in combination with the laminectomy arm cradles

Product #	Dimensions	Compression	Qty
M60-342	6" x 6" x 6"	Non-Compressed	12Pr/Cs

Surgical Patient Positioners

Upper Extremity

Convoluted Arm Board Pads

- Breathable, high-density or low-density foam construction
- Designed to protect the elbow, forearm, and ulnar nerve during surgical procedures
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Convoluted foam construction promotes air circulation for patient comfort
- Bilateral usage

Product #	Dimensions	Compression	Qty
M10-315	16" x 7½" x 2"	Compressed	12Pr/Cs
M10-312	18" x 7½" x 2"	Non-Compressed	36Pr/Cs
M10-315-36	16" x 7½" x 2"	Non-Compressed	36Ea/Cs
M10-323	20" x 7½" x 2"	Non-Compressed	32Pr/Cs
M10-323E	20" x 7½" x 2"	Non-Compressed	32Pr/Cs
M10-323C	20" x 7½" x 2"	Non-Compressed	32Pr/Cs
M10-314	8" x 8" x 2"	Non-Compressed	48Pr/Cs
M10-325	36" x 8" x 3"	Non-Compressed	12Pr/Cs
M10-328	20" x 12" x 2"	Non-Compressed	12Pr/Cs
M10-324	36" x 8" x 2"	Non-Compressed	12Pr/Cs

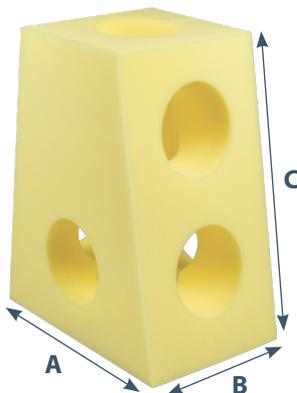

Universal Arm Protector

- Breathable, high-density foam construction
- Designed to protect the elbow, forearm, and ulnar nerve
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Convoluted foam construction promotes air circulation for patient comfort
- Hook and loop straps for easy application and adjustment
- Full 360 degree protection

Product #	Dimensions	Compression	Qty
9262-00	23" x 18"	Compressed	12Pr/Cs

Arm Cradle

- Breathable, high-density foam construction
- Stabilizes arm in upright position
- Ventilation holes promote air circulation, dissipate heat, and allow use of ice packs to reduce edema

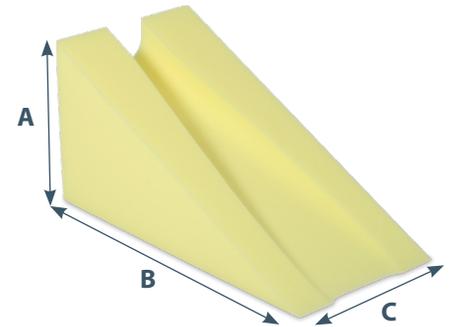

Product #	Dimensions			Compression	Qty
	A	B	C		
M60-034	12½"	9"	15½"	Compressed	5/Cs

Surgical Patient Positioners

Lower Extremity

Leg Positioner w/ 45° Angle

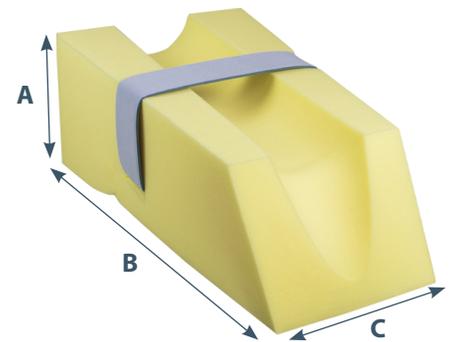

- Breathable, high-density or low-density foam construction
- Provides stability and support for full length of lower extremity
- Gradual incline permits full knee flexion
- Channel is designed to help prevent rotation and unwanted movement
- Slim, concave design helps provide patient comfort

Product #	Dimensions			Compression	Qty
	A	B	C		
M60-070	13"	27"	13"	Compressed	4/Cs
M60-070E	13"	27"	13"	Non-Compressed	2/Cs

Leg Positioner

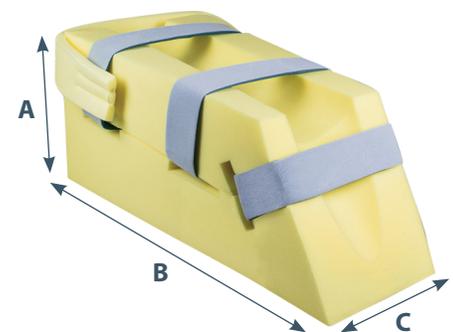

- Breathable, high-density foam construction
- Stabilizes knee and lower leg while promoting better circulation
- Foam straps with hook closure for easy application and adjustment

Product #	Dimensions			Compression	Qty
	A	B	C		
M60-015A	11"	29"	11"	Compressed	2/Cs
M60-015B	10"	28"	10"	Compressed	1/CS

Leg Positioner w/ Foot Drop Strap

- Breathable, high-density foam construction
- Hook receivable foot drop strap holds foot in neutral position
- Stabilizes knee and lower leg while promoting better circulation
- Foam straps with hook closure for easy application and adjustment

Product #	Dimensions			Compression	Qty
	A	B	C		
M60-015	15"	32"	11"	Compressed	4/Cs

Surgical Patient Positioners

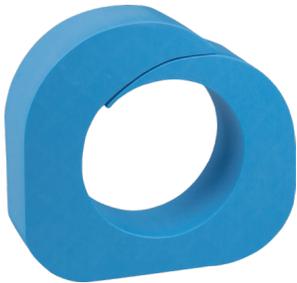

Lower Extremity

Arthroscopic Well-Leg Holder

- Breathable, high-density foam construction
- Designed to support and position the patient's non-affected leg during arthroscopic knee procedures
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Optimizes position and accessibility for surgical procedures

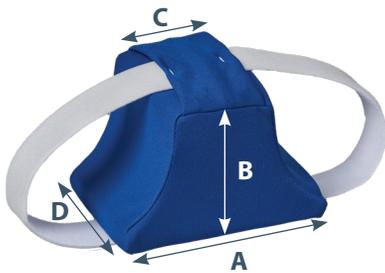

Product #	Dimensions	Compression	Qty
M10-071	10" x 6" x 2"	Compressed	5/Cs

Arthroscopic Knee Ring

- Breathable, high-density foam construction
- Designed to protect the leg and knee
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown

Product #	Dimensions	Compression	Qty
M10-073	11½" x 11" x 3" - 7" opening	Non-Compressed	8/Cs

Knee Wedge

- Breathable, high-density foam construction with polyester cover
- Provides abduction and alignment of legs
- Long foam straps with hook closure for easy application and adjustment

Product #	Dimensions				Compression	Qty
	A	B	C	D		
M60-049	8"	5"	4½"	6"	Compressed	1 Ea

Knee Roll

- Breathable, high-density foam construction
- Designed to be used in multiple surgical and post-surgical procedures for various positions
- Provides stability, support, and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown

Product #	Dimensions	Compression	Qty
M60-044	11½" x 7" Diameter	Non-Compressed	9/Cs

Foot Elevators

- Breathable, high-density foam construction
- Helps maintain proper position while suspending the heel
- Stockinette cover included for patient comfort

Product #	Dimensions	Compression	Qty
M3020-4	4" x 8" x 3½"	Compressed	6Pr/Cs
M3020-6	6" x 8" x 3½"	Compressed	6Pr/Cs

Foot Cradle

- Breathable, high density foam construction
- Stabilizes foot in upright position
- Ventilation holes promote air circulation, dissipate heat, and allow use of ice packs to reduce edema

Product #	Dimensions	Compression	Qty
M60-045	14" x 9"	Compressed	10/Cs

Foot Drop Support

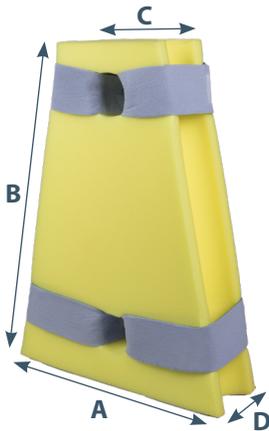

- Breathable, high-density foam construction
- Adjustable anti-rotation strap holds foot in neutral position and keeps heel suspended
- Hook receivable foam strap

Product #	Dimensions	Compression	Qty
M60-018	8" x 10"	Compressed	5/Cs

Surgical Patient Positioners

Lower Extremity

Concave Hip Abduction Positioner

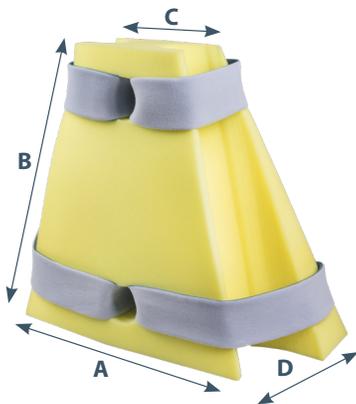

- Breathable, high-density or low-density foam construction
- Concave sides hold legs in secure position
- Long foam straps with hook closure for easy application and adjustment
- Compressed packaging for efficient storage (high-density) or non-compressed option (low-density)

Electrosurgical

Electrosurgical Pencils

Electrosurgical Pencils

- Hand-activated electrosurgical pencils
- Three-prong plug fits most electrosurgical generators
- Available in 10' and 15' cords for easy set up and drapeability
- PTFE coated electrodes designed to reduce tissue adhesion
- Not made with natural rubber latex
- Sterile, 50 Ea/Cs

Sterile Uncoated	Sterile PTFE Coated	Non-Sterile PTFE Coated	Non-Sterile Uncoated	Description

88-000008	—	—	—	Holster

All Non-Sterile pencils are 100/Cs, holster sold separately

Suction Coagulators

- Increased efficiency during procedures requiring controlled fluid evacuation
- Suction and coagulation can be performed independently or simultaneously
- Available in foot or hand switching “coag” activation options
- Vented handle for suction control
- Handle is ergonomically designed to provide a sure grip when wet and improve tactile sensitivity
- Flexible configuration allows clinician to match instruments to specific surgical needs
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
KW-30-5200*	10 FR Suction Coagulator w/ Hand Switch Activation	1/Pk, 10 Pks/Cs
88-2505-10FR*	10 FR Suction Coagulator w/ Foot Switch Activation	1/Pk, 10 Pks/Cs

Micro Needles

- Precision in cutting and coagulation without the expense of a laser
- Ultra-sharp tip allows use of extremely low wattage
- Tungsten tip for heat resistance
- Insulated within 3 mm of tip to allow deep tissue access without the risk of accidental burns
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
88-103	3 cm Micro Needle Electrode	10/Cs
88-104A	4 cm Micro Needle Electrode	10/Cs

Electrosurgical

Dispersive Electrodes

88-1510

Arthroscopic Electrodes

- For use in arthroscopic procedures where irrigating solutions are used in conjunction with an electrosurgical pencil
- Insulation extends to the electrode tip for precise energy delivery
- Transparent insulation improves surgeon's tip visualization
- Stabilizing electrode cap ensures a safe connection from electrode to pencil
- Compatible with all pencils for ease of conversion
- 6½" (16.51 cm) length
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
88-1510	Insulated Arthroscopic Hook, 90°	10/Cs
88-1512	Insulated Arthroscopic Angled Blade, 90°	10/Cs
88-2510*	Rocker Pencil w/ 88-1510 Electrode	10/Cs
88-2512*	Rocker Pencil w/ 88-1512 Electrode	10/Cs
88-2610	Push Button Pencil w/ 88-1510 Electrode	10/Cs

FlexiPad™ Electrode

- Strong adhesion, yet gentle removal
- Standard plugs work with most electrosurgical generators
- Flexible cord for easy set up and drapeability
- Impermeable foam backing and non-conductive adhesive border create a moisture-resistant seal that effectively blocks fluid penetration
- FlexiPad™ electrode has a unique shape and advanced hydrogel adhesive to better conform and adhere to body contours
- Not made with natural rubber latex

FlexiPad™	Description	Qty
88-104	Adult Dual Conductor Pad	1/Pk, 50 Pks/Bx, 1 Bx/Cs

88-000102

Hydrogel

- Strong adhesion with gentle removable hydrogel is compatible with most skin types
- Standard 3-prong plug fits most major brands of generators
- 10' preattached cord for convenience and ease of use
- Not made with natural rubber latex
- Non-Sterile

Product #	Description	Size	Qty
88-000102	Dual Conductor (REM) Pad w/ 10' Cord	Adult	100/Cs

⚠️ *WARNING - This product can expose you to Lead, Nickel compounds, and Titanium Dioxide, which are known to the State of California to cause cancer and Lead, which is known to the State of California to cause birth defects or other reproductive harm. Electrode Tip Cleaner

- A convenient debris removal system
- Coated scratch pad for quick and easy cleaning of instrument tips
- Radiopaque element ensures x-ray detectability
- Adhesive backing securely holds on draped surface
- Single use only
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
32-200	1.8" x 1.7" Tip Cleaner	1/Pk, 25 Pks/Bx, 4 Bxs/Cs
30-200	1.8" x 1.7" Tip Cleaner	1/Pk, 240 Pks/Cs

Disposable Bipolar Cord

- For use in conjunction with ophthalmic/neurosurgical microsurgical bipolar forceps
- Single use only
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
88-001000	12' Bipolar Cord, Sterile	1/Pk, 10 Pks/Cs

Electrosurgical

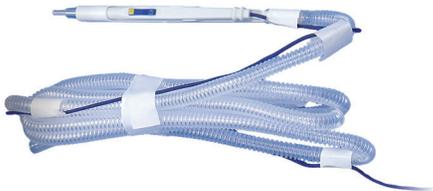

Smoke Evacuation

ExtendEVAC® Smoke Evacuation Pencils

- Integrated into button switch pencil for use with wall suction or any smoke evacuator machine
- Clear tip allows visualization of entire electrode tip
- Low-profile ExtendEVAC® pencil with integral telescoping smoke evacuation tip
- Telescoping feature allows electrode to be adjusted from 1" to 6", saving time and money
- Telescoping smoke evacuation remains close to cautery site for optimum performance
- Soft tubing with swivel for ease of use
- Not made with natural rubber latex
- Sterile

Product # Uncoated	Product # Coated	Description	Qty
88-000702	88-000722	ExtendEVAC® 10' Tubing 3/8" Diameter, Holster	1/Pk, 25 Pks/Bx, 1 Bx/Cs

Smoke Evacuation Attachment

- Universal smoke evacuation attachments and accessories
- Universal snap-on sheath attachments convert standard pencil into a smoke evacuation pencil
- Fits all electrosurgical pencils available on market
- Single use only
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
88-000600	Universal Smoke Evacuation Attachment w/ 10' Tubing 3/8" Diameter	1/Pk, 25 Pks/Bx, 1 Bx/Cs

Insufflation Tubing Sets

- Adaptable to most insufflators for tubing standardization
- Color-coded tubing aids in setup
- Rotating luer-lock connector prevents twisting or disconnects of CO² line
- Durable, non-collapsing tubing
- Bi-directional .1 or .3 micron filters reduce the chance of contamination
- High-flow filter available that will not inhibit pneumoperitoneum
- Not made with natural rubber latex
- Available in 10' tubing length
- Sterile
- For non-sterile bulk offering, add NS to product number

.1 Micron Filter, Low Flow

Grab Bag™ Endoscopic Specimen Retrieval Pouch

- Durable polyurethane pouch is large enough to accommodate a wide range of specimens
- Unique “memory ring” automatically opens once inside abdomen
- Easy to use economic design
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
28-0001	Grab Bag™ Retrieval Pouch	10/Cs

 *WARNING- This product can expose you to chemicals including Dichloromethane (Methylene chloride) which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

Kittner Laparoscopic Dissection Sponge

- Physician designed with tapered edges allow for easy insertion and removal
- X-ray detectable and passable through trocars 10 mm or larger
- High quality rayon fibers prevent disintegration and linting
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-305K	½" x 6"	5/Pk, 10 Pks/Cs

Laparoscopic Instrument Pouch

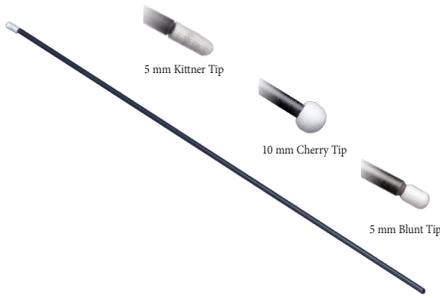

- Secure, convenient storage of instruments close to the surgical site
- Reduces hand-to-hand transfer
- Three pockets for multiple instruments
- Extra long sleeve ensures the safe retention of all standard minimally invasive instruments
- Two adhesive strips securely attach the instrument pouch to the patient drape
- Not made with natural rubber latex

Product #	Description	Qty
25-303	Sterile 18.5" x 9.5"	30/Cs
25-303NS	Non-Sterile 18.5" x 9.5"	30/Cs

Endoscopic and Laparoscopic

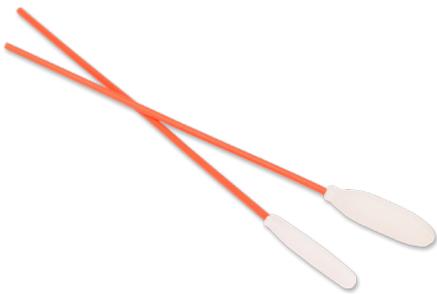

Laparoscopic

Laparoscopic Dissectors

- Three tip types: 5 mm Kittner, 10 mm Cherry, and 5 mm Blunt
- 100% cotton tip
- Secure attachment
- X-ray detectable
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
28-0801	Kittner, 5 mm tip, 45 cm shaft	10/Cs
28-0802	Cherry, 10 mm tip, 41 cm shaft	10/Cs
28-0804	Blunt, 5 mm tip, 41 cm shaft	10/Cs
28-BTD05	Tri-Pack Blunt, 5 mm tip, 41 cm shaft	12/Cs

TroClean™ Trocar Cleaning Device

- Absorbs fluid and removes debris from the inside barrel of a trocar
- Cleans without leaving smudges, biomass, or particulate
- Helps restore visibility quickly
- For use with trocar sizes 5 - 8 mm and 10 - 12 mm
- Pack contains 5 - 8 mm and 10 - 12 mm TroClean™ devices
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
28-1002	Trocar Cleaning Device	25/Cs

SutureClose™ Laparoscopic Port Closure System

- Technology for fascia/peritoneum closure
- Ability to close multiple sites during same procedure
- Closure under laparoscopic visualization
- Mitigates the possibility of port site hernias
- Closure without having to extend the incision
- One-handed operation
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
28-1001	Laparoscopic Closure Needle and Guide	10/Cs

DeFogger™ Anti-Fog Solution

- Specially formulated solution that safely prevents lens fogging
- Will not damage scope
- Each bottle comes with non-abrasive, X-ray detectable foam pad
- Place a few drops on pad for fog-free surgery
- Adhesive-backed pad allows universal placement
- Contains 6 gm
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
28-0101	Oval Bottle	20/Cs
28-0102	FlipTop	20/Cs

Scope Warmer

- Accommodates da Vinci® Robotic Scopes
- Easy-to-use design with dual sides offering twice the amount of warming time compared to most competitors
- Warms multiple endoscopes; including the scopes for saphenous vein harvesting
- Disposable and environmentally friendly
- Not made with DEHP
- Not made with natural rubber latex
- Single use only
- Sterile

Product #	Description	Qty
TM500D	Scope Warmer	10/Cs

Laparoscopic Kit

- Packaged together for your convenience
- Can be customized to your preferences
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
28-0704*	DeFogger™ Solution, Insufflation Tubing & Pneumo Needle	10/Cs

⚠️*WARNING- This product can expose you to chemicals including Dichloromethane (Methylene chloride) which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

Endoscopic and Laparoscopic

Laparoscopic

Camera and Laser Arm Drape

- Easy-to-use telescopic fold with cuff
- Clear, elasticized fenestration for secure fit around endoscope
- Optional adhesive tape strip and rubber bands to further secure drape closure
- Stretchable neck material ensures tight fit
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
28-0401	7" x 96" Camera Drape, Laser Arm w/ Elastic Krayton Tip, 1/4" Opening	60/Cs
28-0402	5" x 96" Camera Drape, Laser Arm w/ Perforated Tip, 2" Opening	20/Cs

ProShield™ Protector & Contaminant Shield for Endoscopes

9600-BU10D

9600-BP10D

9600-SD06D

- Reduces risk of costly endoscope transport damage
- Funnel-style opening for quick and effortless insertion of scope, perfect for secured transport of scope
- Individually sealed to keep inside of ProShield™ clean, preventing microorganism-carrying dust from settling on or in tube surfaces
- Peel-pack seal for quick removal and use during stat-rushed conditions
- Sealed bottom contains contaminants and allows use of a rinsing solution to quickly remove materials before they harden and dry
- Enhanced and improved patient and staff safety
- Enables immediate enzyme soap soaking of scope at patient bedside
- Helps reduce hospital-acquired infections
- Option for TEE Scopes
- Not made with natural rubber latex
- Sterile

ProShield™ Protector and Containment Shield

Product #	Description	Qty
9600-030A-10D	Sealed Bottom, 30"	10/Cs
9600-030A-50D	Sealed Bottom, 30"	50/Cs

Product #	Description	Qty
9600-BU10D	Universal C-Bracket	1/Ea
9600-BP10D	IV Pole Mount	1/Ea
9600-SD06D	Table Top Stand	1/Ea

Epistaxis Sponges

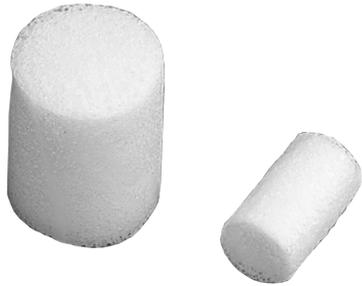

- Provides quick and effective control of nasal bleeding
- Atraumatic removal helps prevent active rebleeding
- Compressed configuration slides easily into nasal cavity
- Quickly expands to absorb fluids while maintaining patient comfort
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
34-202	Small w/ String 5.5 cm long x 1.5 cm thick x 2.5 cm high	1/Pk, 10 Pks/Cs

Otology Sponges

- Reduces risk of stenosis of the external ear canal following otic surgery
- Compressed configuration allows easy insertion into the ear canal
- Keeps antibiotics in contact with the wound site through anatomical expansion
- Fiber free to minimize tissue ingrowth
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
34-401	Otitis External Wick, 9 mm x 15 mm	1/Pk, 10 Pks/Cs
34-402	Otitis External Wick, 9 mm x 24 mm	1/Pk, 10 Pks/Cs

Specialty Sponges

Ophthalmic Sponges & Eye Spears

Eye Spear/Fine Dissector

- Fine-pore, cellulose fiber is low-linting and absorbent
- X-Ray detectable
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-049*	Eye Spear/Fine Dissector	10/Pk, 10 Pks/Cs
30-049-6	Eye Spear/Fine Dissector	6/Pk, 50 Pks/Cs
30-049-10	Eye Spear/Fine Dissector	10/Pk, 50 Pks/Cs

* Available in Non-Sterile- add NS to Product Number

PVA Eye Spear

- Designed to be used in Lasik surgery and cataract surgery
- Constructed of virtually lint-free polyvinyl acetal to reduce eye irritation
- Absorbs up to five times more fluid than standard cellulose spears
- Expands instantly when in contact with fluids
- Allows for gentle manipulation of delicate tissues
- High tensile strength without breaking apart
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-049-P5	PVA Eye Spears	5/Pk, 40 Pks/Cs

Rosebud Dissector

- Smaller and firmer than a Peanut or Round dissector
- X-ray detectable radiopaque element
- Foam holder enables easy sponge count
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-202	¼" in Foam Holder	5/Pk, 40 Pks/Cs

Peanut Sponge

- X-ray detectable radiopaque element
- Foam holder enables easy sponge count
- Not made with natural rubber latex
- Sterile

SurgiClick® Flexible Light Handle Covers

- Patented design snaps firmly and easily into place to minimize contamination risks
- Unique ergonomic design minimizes risk of splitting or tearing of plastic while ensuring a no-slip grip
- Rigid flange allows quick, easy application
- Reduces the cost of processing, sterilizing, and storing light handles
- Flat packaging for efficient storage
- Light handle adapters are available to fit most brands of surgical lights
- Sterile

Product #	Qty
26-011	1/Pk, 60 Pks/Bx, 2 Bxs/Cs
26-012	2/Pk, 30 Pks/Bx, 2 Bxs/Cs
26-013	3/Pk, 25 Pks/Bx, 2 Bxs/Cs

Saf-T-Glove™ Flexible Light Handle Covers

- Double angle flange for easier application
- Serpentine rib design for reinforcement of flange
- Light handle adapters are available to fit most brands of surgical lights
- Friction-fit provides a secure fit to minimize risk of contamination
- Sterile

25-201	Polyvinyl Alcohol 2½" x 2½"	120/Cs
34-506	Instrument Wipe w/ Wick	1/Pk, 10 Pks/Cs

Surgical Accessories

Holders & Clamps

For use with:

- Jejunostomy tubing
- Leg Bag tubing
- Subclavian port lines
- Wound drainage tubing
- Peritoneal dialysis exit site tubing
- A variety of other tubes and catheters

Multi-Purpose Tube Holder

- Ideal for securing Foley catheters and a variety of tubes and catheters
- Adhesive loop securely holds Foley catheter in place and helps prevent tube dislodgment
- Designed for quick and easy placement of all sizes of tubing and lines
- Easy-to-apply adhesive base attaches firmly to skin, cloth, or drapes
- Gentle to skin and easily removed without painful pulling
- Holds lines securely in place, once line is positioned on patient
- Secure placement for positioning to create slack without bladder traction, thus decreasing risk of urinary tract infection
- Easy to position and reposition tabs
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Qty
30-1002*	Medium, Non-Sterile	50 Pks/Cs
30-1003*	Large, Non-Sterile	50 Pks/Cs

Towel Clamp

- Positions drapes, towels, and sponges in sterile field
- Built-in wire holder for cautery pencil or other wires
- Special bridge in curved jaws clamp and occlude a variety of tubes
- Nylon reinforced plastic is strong and durable
- Not made with natural rubber latex
- Available in sterile or non-sterile

Product #	Description	Qty
30-901	Towel Clamp	1/Pk, 80 Pks/Cs
30-902	Towel Clamp	2/Pk, 120 Pks/Cs
30-900NS	Towel Clamp, Non-Sterile	100/Cs

Tube Positioner

- Allows stationary placement of tubes, lines, and cords in sterile field
- Extended adhesive peel-off backing for anchored placement
- Easily removed by gloved personnel
- Raypaque element ensures X-ray detectability
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-802*	Tube/Cord Holder	25 Pks/Bx, 2 Bxs/Cs

 *WARNING- This product can expose you to chemicals including Acetaldehyde, Benzene, and Ethylbenzene which is known to the State of California to cause cancer and Methanol, Benzene, and Toulene which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Anesthesia Drape “Peach” Clip

- Used to attach surgical drape to IV poles to create barrier at patient’s head
- Can be used for a variety of other clamping purposes
- Heavy duty holding power that will not slip
- Wide, easy-to-grip surface
- Non-rusting components
- Multiple colors
- Not made with natural rubber latex
- Non-sterile

Equipment Covers & Drapes

X-ray Cassette Covers and Liners

- Clear poly bag with wide adhesive strip for closure
- Several sizes to fit a broad range of cassette widths and lengths
- Double Cassette Drape available with unique closure to ensure sterility
- Pull-away liner reduces chance of contamination once cassette is inserted
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-0101	X-ray Cassette Cover w/ Adhesive Strip, 24" x 25", Standard	20/Cs
30-0102	X-ray Cassette Cover w/ X-large Cuff, 21" x 40"	20/Cs

Step 1: Grasp both corners of drape to unfold. Position hands inside cuff at each corner in accepting position.

Step 2: Spread drape apart to allow accepted cassette to gently slide to bottom of drape.

Step 3: Fully extend drape.

Step 4: Fold drape until cuff fits opposite end of cassette.

Surgical Accessories

Equipment Covers & Drapes

Product #	Description	Quantity	
30-0103	X-ray Cassette Cover w/ Release Liner, 20" x 24"	20/Cs	
30-0104	X-ray Cassette Cover w/ Release Liner, 24" x 23"	20/Cs	

Step 1: Position hands under white corner cuffs and spread drape apart to accept cassette.

Step 2: Insert cassette into drape through blue liner.

Step 3: Carefully remove liner by grasping outer sleeve and pulling up.

Step 4: Gently slide cassette to the bottom of the drape.

Step 5: Unfold white cuff.

Step 6: Fold cuff over cassette edge to close drape.

Isolation Drape

- High quality, soft, flexible material that is strong and puncture-resistant
- High tensile strength and elongation properties ensure the safety of the sterile environment without tearing
- Only for use with tissue or organs removed from the body but not intended to be returned to the body cavity
- Useful to isolate distal portions of extremities from contamination
- Other uses include the transport of specimens and to protect equipment during procedures and storage
- Moisture-proof surface prevents fluid loss through evaporation
- Drawstring used to enclose organs that are to be kept moist once removed from the body but not intended to be returned to the body cavity
- Impervious vinyl film bag allows the visualization of organs at all times
- Protects the intestines from trauma and contamination when removed from the abdominal cavity during surgery but not intended to be returned to the body cavity
- Not made with natural rubber latex
- Sterile

Surgical Accessories

Bandages

Elastic Bandages

- Made from high quality elastic
- Used for over-wrapping compression dressings following extremity surgery
- Superior patient comfort and breathability
- Requires less force to stretch while providing maximum compression
- Greater range of stretch power allows clinicians to set compression
- Long-stretch bandages
- Honeycomb texture provides even greater stretch with greater compression range
- Honeycomb texture has scalloped edges to prevent rolling
- Available with either metal clip or hook and loop closure
- Not made with natural rubber latex

Safety Solutions

OR Safety Management

Step 1: Insert blade into DeBlade™ mechanism.

Step 2: Slide forward until blade "catches."

Step 3: Slide backward until blade drops safely into box.

DeBlade™ Needle Counters

- Full-surface magnet provides extra space for odd-shaped sharps, pins, blades, or needles
- Scalpel handle guide facilitates use of the blade remover
- Overlapping box edges prevent sharps from escaping when closed
- Numbers on magnet allow easy sharps placement and positioning
- Easy-to-read numbers and descriptions facilitate correct count of blades and needles
- User passive locking latch engages automatically to prevent inadvertent opening
- Red color signifies biohazard waste
- Not made with natural rubber latex
- Sterile

Disposable Safety Scalpels

- Controlled retraction of the entire blade
- Safe and easy to open with temporary forward locking to prevent accidental retractions
- Permanent spring lock position for disposal
- Multiple stainless steel blade sizes with color-coded sliders for easy identification
- #4 handle houses larger stainless steel blades
- Ribbed, slip-resistant finger grips for a secure hold in gloved hands, accommodating a variety of hand positions
- High-visibility red color denotes a biohazard to ensure proper disposal in sharps container
- Full blade visibility at all times to reduce the chance of accidental injury
- Designed by a cardiovascular surgeon in conjunction with a safety engineer
- Clinically reviewed and industry-listed as sharps safety device meeting OSHA requirements
- Not made with natural rubber latex
- Available sterile and non-sterile

SharpStop™ Sharps Transfer Tray

- A disposable device to transfer and pass commonly used sharp instruments
- Use where controls are required to reduce employee exposure to bloodborne pathogens
- Helps to prevent sharps injuries during invasive procedures
- Facilitates compliance to OSHA Directive CPL 2-244D
- Accommodates wide range of scalpels, sutures, trocars, forceps, K-wires, syringes, and retractors
- Underside accommodates the practical positioning and safe passing of multiple instruments
- Accommodates handle sizes 3, 4, 5, 7, and 9 with loaded scalpel blades 10, 11, 12, 15, 20, 22, and 23
- Center finger guide cradles scalpel for safe removal
- Sloping sides automatically rotate and direct dropped scalpels into safety position
- Specially designed central recess is wide enough to accommodate scalpel blades but does not allow fingers to touch blades
- Not made with natural rubber latex

Product #	Description	Qty
59-0806	77" x 18" x 32"	20/Cs

Supreme Under Buttocks Drape

- One of the most absorbent drapes available for delivery
- Features pouch area to catch fluids
- Ideal for use in late labor as well as delivery
- Impervious backing and foam insert help prevent fluids from backwashing under patient
- Saves linens and clean up time
- Not made with natural rubber latex
- Single Use Only
- Sterile

Product #	Description	Qty
59-0802	32" x 50"	10/Cs

Clear Grip™ Baby Syringe Aspirator

- Easy-to-hold syringe
- Made of clear, flexible rubber to establish quantity, color, and type of aspirated fluid
- Side grippers for a firm non-slip hold
- Gentle safety tip with firm suction power for thorough extraction
- Clear bulb ensures complete emptying and cleaning
- 60 cc (2 oz) syringe
- Available with standard or narrow tip
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
32-1328	Standard Tip	24/Cs
32-1328NT	Narrow Tip	24/Cs

Baby Caps

- Soft spun polyester yarn gently cuffs baby's head
- Knitted in a small pattern sequence to prevent heat loss
- Double-ply, surgical-grade knitting
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Qty
32-1335NS	White	100/Cs
32-1336NS	Pink & Blue Striped	100/Cs

Umbilical Cord Clamp

- Snap-tight closure
- Clamp tested to over 11 lbs of pull-force
- Not made with natural rubber latex
- Available in sterile and non-sterile

Product #	Description	Qty
6833	Cord Clamp w/ 2 Clamp Cutters	50/Bx, 2 Bxs/Cs
6833-B	Cord Clamp w/ 1 Clamp Cutter	1000/Cs
6833NS	Cord Clamp w/ 2 Clamp Cutters	1000/Cs

Umbilical Clamp Cutter

- Clamp cutter available for easy cord clamp removal
- Disposable
- Not made with natural rubber latex
- Single Use Only
- Non-sterile

Product #	Description	Qty
72-7000	Clamp Cutter	6/Bx
72-7000B	Clamp Cutter	200/Cs

Umbilical Tape

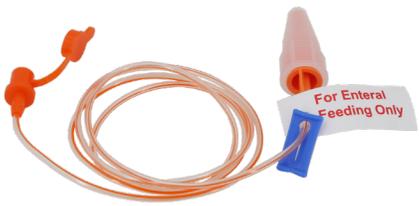

- Flat cotton tape for tying off umbilical cord stump
- Available in three pre-cut lengths
- Non radiopaque
- Not made with natural rubber latex
- Non-sterile

72-4101	Premature	12/Bx
72-4102	Newborn	12/Bx

Labor and Delivery

Warming Devices

Infant Heel Warmer

- Reaches a maximum temperature of 105° F/41° C
- Convenient ankle strap holds product in place
- Non-toxic liquid warming solution
- Comes in convenient dispenser boxes
- Made with soft, pliable material to be gentle to baby's skin
- Quick, easy activation
- Not made with natural rubber latex
- Non-Sterile

Product #	Description	Qty
HNICU-100	Infant Heel Warmer	100/Cs

Infant Transport Mattress

- Helps maintain loss of neonatal body heat during transport
- Reaches a maximum temperature of 105° F/41° C
- Non-toxic gel and soft material create a comfortable “nest” for baby
- Helps absorb vibration during transport
- Sturdy bag design prevents leakage during activation or use
- Not made with natural rubber latex
- Non-Sterile

Product #	Description	Qty
HNICU-200	Infant Transport Mattress	4/Cs

IV Armboards

- To stabilize IV sites on delicate veins and limbs
- Malleable stays offer several positioning options
- Removable hook and loop straps eliminate the need for tape
- Padded for baby's comfort
- Not made with natural rubber latex
- Non-Sterile

Product #	Description	Qty
M8125-C	Child, 2" x 7¼"	30/Cs
M8125-I	Infant, 1½" x 3"	30/Cs
M8125-A	Adolescent, 4" x 9"	25/Cs

Foam IV Boards

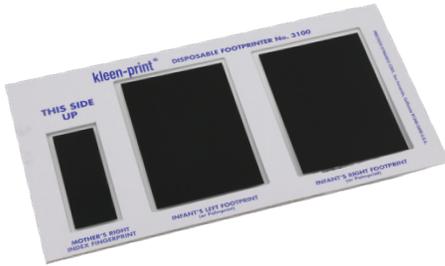

- Three convenient sizes
- Small metal stay contours easily to fragile limbs
- Tape application to ease the tension to infant's skin
- Not made with natural rubber latex
- Non-Sterile

Product #	Description	Qty
72-6100	Small, 2" x ¾"	100/Cs
72-6101	Medium, 3" x ¾"	100/Cs
72-6103	X-Large, 6" x 1½"	12/Cs

Labor and Delivery

Footprinters

Neet Feet™ Footprinter

- No mess or clean-up time
- Footprinting in one easy step
- Special tri-windowed printing surface for both baby's feet and mother's thumb
- No special paper needed
- Not made with natural rubber latex
- Non-sterile

Product # 5950 **Qty** 25/Bx

Print-A-Foot™ Rigid Footprinter

- Easy, convenient handling for accurate prints
- Rigid plastic design for maximum stability and pressure
- Comes neatly stacked in dispenser box
- Not made with natural rubber latex
- Non-sterile

Product # 6950 **Qty** 25/Bx, 4 Bxs/Cs

Circumcision Drape

- Center-cut fenestration is sewn, so edges will not fray and obstruct procedures
- Eliminates need for multiple towels, saving time and money
- Prewashed, de-linted
- Made from high quality blue cotton disposable OR towel
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
70-104	17" x 13" w/ 1½" Fenestration	40/Cs

Circumcision Straps

- Used to restrain infant's extremities during procedure
- Straps are easily affixed to circumcision or "papoose" boards with hook and loop
- Soft hook and loop receivable material for secure fit and baby's comfort
- Disposable
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Qty
M1131	Circumcision Straps	20/Cs

Labor and Delivery

Circumcision Products

Add-A-Clamp Circumcision Trays

- All items included for procedure
- Eliminates risk of cross-contamination
- Kit does not include disposable clamp
- Sterile packaging
- Not made with natural rubber latex

Product #	Description	Qty
